

Brainstorm & Idea Prioritization – Online Complaint Register (MERN)

Date	18 June 2026
Team ID	
Project Name	Online Complaint Register
Maximum Marks	4 Marks

Step-1: Problem Statement & Personal Role

- Problem Statement: Users need a simple, secure way to register complaints online, track their progress, and receive timely resolution.
- Role: As the sole developer, I am responsible for backend, frontend, database design, and testing.

Step-2: Brainstorm, Idea Listing & Grouping

Ideas Generated:

- User authentication (login/signup)
- Complaint submission form with category selection
- Complaint tracking dashboard
- Admin panel for monitoring complaints
- Notifications (email/SMS/alerts)
- Feedback & rating module
- Analytics (complaint trends, resolution time)
- Responsive design for mobile/desktop

Grouped Ideas:

- Core User Features: Authentication, complaint submission, tracking
- Admin Features: Monitoring, analytics, escalation handling
- System Features: Notifications, responsive UI, secure database
- Value-Add Features: Feedback module, reporting

Step-3: Idea Prioritization

Priority	Feature	Reason
High	Complaint submission & tracking	Core functionality
High	User authentication	Security & access control
Medium	Admin panel	Needed for complaint management
Medium	Notifications	Improves user engagement
Low	Analytics	Useful but not critical for MVP
Low	Feedback module	Adds value but can be phased in
