Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ Understand the existing situation in order to improve it for your target group.

Problem–Solution Fit – Online Complaint Register (MERN)

Category	Description
Customer Problem	Citizens face delays and confusion when registering complaints. They lack transparency, real-time updates, and easy access to authorities.
Customer Behavior	People visit offices, make phone calls, or send emails to report issues — often wasting time and effort. They feel unheard and frustrated.
Proposed Solution	Develop a MERN-based web platform that allows users to register complaints online, track progress, receive notifications, and provide feedback.
Fit Justification	The solution directly addresses the pain points — offering convenience, transparency, and accountability through a digital interface.
Purpose Alignment	- Solves a frequent, time-consuming problem. - Increases trust through transparency. - Improves communication between citizens and authorities. - Encourages faster adoption by using familiar web interfaces.
Expected Outcome	Higher user satisfaction, reduced complaint resolution time, and improved public service efficiency.
