

User Acceptance Testing (UAT) Template

Date	18 June 2026
Team ID	
Project Name	Online Complaint Register
Maximum Marks	4 Marks

Project Overview:

Project Name: Online Complaint Register

Project Description:

The solution architecture illustrates how different components of the Online Complaint Register system interact to deliver a seamless user experience.

- **Frontend (React.js):** Provides the user interface for complaint submission, tracking, and feedback.
- **Backend (Node.js + Express.js):** Handles authentication, complaint processing, and communication between the frontend and database through REST APIs.
- **Database (MongoDB):** Stores structured data for users, complaints, agents, and feedback.
- **Admin Panel & Analytics:** Allow administrators to monitor complaints, generate reports, and analyze feedback for service improvement.

Project Version: 1

Testing Period:12-06-2026 to 18-06-2026

Testing Scope:

Testing Scope – Online Complaint Register (MERN)

Category	Details
Features & Functionalities to be Tested	- User registration and login (JWT authentication) - Complaint submission and tracking - Admin dashboard and agent assignment - Notification and feedback modules - Data validation and error handling
User Stories / Requirements to be Tested	- As a user, I can register and log in securely. - As a user, I can submit a complaint and view its status. - As an admin, I can assign agents and monitor complaints. - As a user, I can provide feedback after resolution. - The system should send notifications for status updates.

Testing Environment:

URL/Location: Deployed in local host

Credentials (if required):

1) User:

Gmail: karthik@gmail.com

Password: 123456

2)Admin:

Gmail: admin@gmail.com

password: password

3)Agent:

Gmail: aaron@gmail.com

Password: 123456

Test Tracking Table

Test ID	Feature / Scenario	Expected Result	Actual Result	Status
T001	User Registration & Login	User can register and log in securely	Works as expected	Pass
T002	Complaint Submission	Complaint is saved and visible in dashboard	Works as expected	Pass
T003	Complaint Tracking	User can view complaint status updates	Status not updating	Fail
T004	Notifications	User receives email/SMS alerts	Alerts delayed	Partial
T005	Feedback Module	User can submit feedback after resolution	Works as expected	Pass

Bug Tracking Table

Bug ID	Description	Severity	Status	Assigned To	Resolution
B001	Complaint status not updating in user dashboard	High	Open	Backend Developer	Pending fix
B002	Notifications delayed by 5–10 minutes	Medium	In Progress	DevOps Engineer	Optimize cron jobs
B003	Feedback form not validating empty fields	Low	Resolved	Frontend Developer	Added validation
B004	Admin panel report export not working	High	Open	Full-stack Developer	Under investigation
